**Specimen Details**

ID	ID Type	Taxonomy	Gender	Age
D1112153-01	CAHFS Internal ID	Caprine	Mixed	

**Laboratory Findings/Diagnosis**

21 of 21 antibody negative for *Corynebacterium pseudotuberculosis*.

**Immunology**

**Test Specific Comments**

***Corynebacterium pseudotuberculosis* antibody - SHI**

\* *C. pseudotuberculosis* SHI titers less than 1:8 are not considered significant, and probably represent cross-reactions with common environmental organisms. Titers >1:256 have a high association with internal abscess formation.

***Corynebacterium pseudotuberculosis* antibody - SHI**
